

Press Information

Truck deliveries in November 2013

In November 12,332 Volvo trucks were delivered, an increase of 31% compared with the same month last year.

In Europe 5,323 vehicles were delivered during November, up by 39% compared with November 2012. An extensive product renewal is under way with five new truck models; Volvo FH, Volvo FM, Volvo FMX, Volvo FE and Volvo FL.

First quarter production rates in Europe will be adjusted to reflect lower demand, which is a consequence of customers having pre-bought trucks ahead of a more stringent emission regulation coming into force 1 January 2014.

November deliveries in North America increased 17% to 2,630 vehicles in comparison with the same period last year.

November deliveries in South America increased 57% to 2,689 trucks compared with November 2012.

Deliveries by market area:

Delivered Units	November		Change	Year-to-date		Change
	2013	2012		2013	2012
