VOLVO Trucks is BOTC's Choice for New Fleet

DOMASCO, exclusive retailers of Volvo Trucks in Qatar, announced the recent contract signing with Bin Omran Trading and Contracting (BOTC) to supply a brand new fleet of the latest Volvo trucks.

BOTC is one of the fastest growing companies in the local market at the moment, predominantly in the field of road construction. BOTC's projects also include the Khalifa Sports City road works, development of the Al-Arabi Sports Club and various road safety projects in Qatar. BOTC has gained an enviable reputation for delivering projects within agreed timeframes and this is one of the reasons their management has chosen Volvo for their new fleet of trucks.

"We have painstakingly built our reputation for one-time delivery where our project commitments are concerned and this is a status we protect in all our endeavors. We deliver a high degree of performance to our clients and need our trucks to do the same for us in terms of technology, operation and after sales support." said Mr. Abdulsalam Issa Abu-Issa, Managing Director of BOTC.

Trucks do not come with a more reliable pedigree than Volvo trucks and BOTC will take delivery of 20 state-of-the-art FM400 4x2T tractor heads into their energized fleet. The FM series has been an outstanding success in over 140 countries worldwide and is renowned for its high torque capabilities, crucial for construction operations or transporting in difficult terrains. "This makes the Volvo FM truck an ideal choice for the transport of the asphalt, rocks, sand and other materials we require for our new and existing high-profile projects" explained Mr. Dori Labaki General Manager for BOTC.

Amjad Juma, DOMASCO-Volvo Trucks Sales and Marketing Manager, added "our aim is to ensure that our clients' individual investment remains an optimum business solution throughout the trucks serviceable life. We are proud to provide BOTC with this new fleet of performance trucks and we aim to address pre-sales to aftermarket services with all our clients with a Sales and Service team who are fully committed to reliability and excellence" he explained.

"DOMASCO-Volvo's legendary After Sales service means BOTC can rest assured that should any problems develop they will be swiftly resolved by our team of experienced and Volvo-certified technicians" said Frank O'Connor, Volvo Trucks Service Manager. "We operate a brand new, fully-equipped, purpose built facility and every attention to detail has been afforded to each truck's individual after sales care. Moreover, we are equipped with a mobile workshop to deal with roadside problems such as breakdowns, ensuring minimum downtime for every Volvo truck under our care" he assured.
